BOSTON POLICE FOUNDATION

Back up Boston's Finest

The Boston Police Foundation was formed in 1993 to provide private financial support for critically needed resources to the Boston Police Department, the oldest police department in the country. Our supporters help fund Officer Wellness and Safety programs, Community Policing programs, new equipment and new technology all geared towards helping Back Up Boston's Finest.

OUR PROGRAMS

OFFICER WELLNESS & SAFETY

Boston Police officers are human. They don't simply forget the cases they investigate. The Boston Police Foundation supports programs that help cops shoulder post-incident stress, anxiety, and depression.

COMMUNITY POLICING

We are proud to support the Boston Police Department's efforts in Community Policing. The BPD's focus on Community Policing over the past couple of years has been evident and we have supported numerous programs, events and equipment to assist in those efforts.

NEW EQUIPMENT

The Boston Police Foundation funds the technological tools that make the Boston Police Department one of the most advanced and best equipped Police forces in the country. It is imperative that the department stays ahead of the ever-evolving technological curve and we are committed to assisting them with that.

NEW TECHNOLOGY

The Boston Police Foundation provides new equipment to the Boston Police Department when it can't fund them in the department's annual budget. Our primary focus is to provide equipment that allows the Boston Police Department Officers to do their jobs to the very best of their abilities while staying as safe as possible.

CRIME STOPPERS/TEXT-A-TIP

The Crime Stoppers Hotline and Text-A-Tip programs give communities real-time tools to fight crime. Since the inception of the programs, information from anonymous phone calls and texts has led to arrests in numerous cases, including homicides, aggravated assaults, car-jackings, and home invasions.
